

G6 Hospitality commits to serving and strengthening our military and veteran community because we understand the value of military team members, their spouses and dependents.

Operation Next Step

Operation Next Step initiative is our first step to provide stability and career opportunities to the more than 2.5 million Americans who have served in the military. A top priority for us is to establish a workplace that allows our military men and women to easily adapt to the civilian workforce. We provide resources that enable our veterans, and their family, to make the transition into the next phase of their careers. Operation Next Step launched in 2014 with a goal to hire up to 1,000 vet and military spouses – and we've achieved our goal in less than 4 years.

To learn more about G6 Hospitality's initiative, visit 6jobs.com/veterans.

Operation Next Step by the Numbers in 2018
